HOW TO ACCESS A PARTNER LIBRARY'S COLLECTION

In the **LIBBY** app and libbyapp.com

✓ **Updated: No more searching for and signing in to each partner library**

With the latest **LIBBY** update, partner libraries are built right in. You just turn them on once using your **Mohave County Library card** — no re-entering card numbers or PINs.

OUR PARTNER LIBRARIES

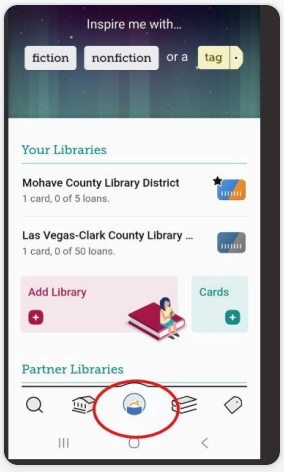

- Southwest Valley Library Consortium
- Tempe Public Library
- Little Libraries That Could
- Yuma County Library District
- Apache County Library District
- Flagstaff City–Coconino County Public Library
- Navajo County Library District
- Yavapai Library Network
- Cochise County Library District
- Pima County Public Library
- Gila County Library District

STEP-BY-STEP INSTRUCTIONS

1 **Update the Libby app** to the latest version, then sign in with your Mohave County Library card number and PIN.

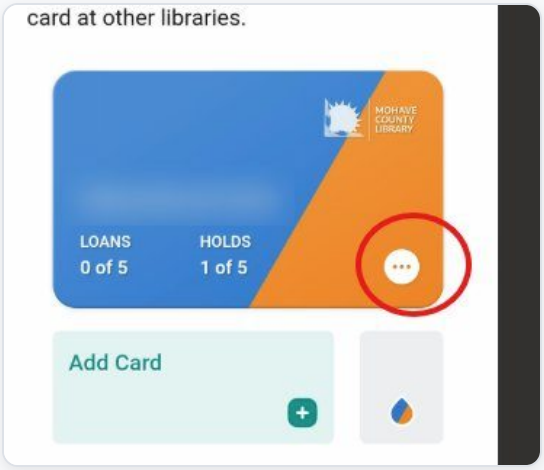

Already signed in? Just update the app.

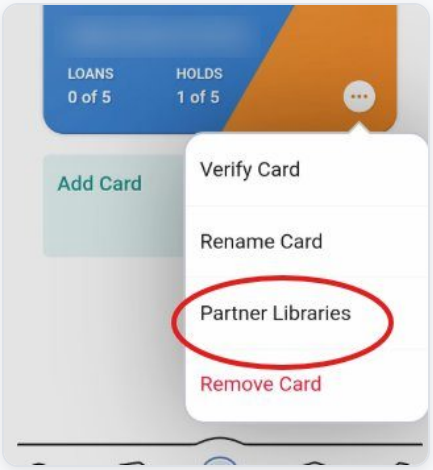

2 Tap **Menu**. You'll see your library under **Your Libraries** and a **Partner Libraries** list below it.

3 Under Your Libraries, tap the **library card icon** for Mohave County Library (not the library name).

4 Tap the **Actions** icon on your card, then tap **Partner Libraries**.

5 Tap **Enable** for each partner library you'd like to use.

You can leave a partner disabled if its limits don't suit you.

6 **Search or browse** as usual. Libby shows the best availability across your enabled partner libraries — tap the **card icon** next to a title to compare availability and wait times.

💡 **Want to browse one partner's collection?** Open the **Menu**, tap a library in the **Partner Libraries** list, and browse it directly.

IMPORTANT NOTES FOR RECIPROCAL BORROWING

- Each partner library network sets its own limits on checkouts and holds.
- Lending period settings from your home library do not carry over — adjust them for each partner library when you borrow.
- When placing holds, the system gives preference to cardholders of the partner library, so you may move up wait lists more slowly. Some partners may not allow holds.
- Already added partner libraries the old way? Your existing loans and holds will keep working.
